

**Research Proposal Form for Submission to the Research Ethics
Committee Huachiew Chalermprakiet University
(For External Person)**

1. Project Title

(Thai).....
.....
.....
.....

(English).....
.....
.....
.....

2. Name of Project Leader

(Thai).....

(English)

Educational Level.....Field of Study.....

Affiliation.....

Contact Address.....

Phone.....Email.....

2.1 Name of Co-Researcher (Thai).....

(If any)

(English).....

Educational Level.....Field of Study.....

Affiliation.....

Contact Address.....

Phone.....

3. Funding Source (If any)

Year Funding Received.....

4. Type of Research

5. Objectives.....

6. Qualifications of Research Participants (Sample Group: Specify Inclusion and Exclusion Criteria)

7. Number of Research ParticipantsPerson

8. Data Collection Tools

Questionnaire (Attach questionnaire and consent form; specify whether interview or self-administered)

Interview Script (Attach guidelines/interview script)

Others (Please specify)

9. Protocol Flow Chart

10. Research Duration: Month.....B.E..... to Month.....B.E.....

11. Potential Negative Impacts on Individuals, Institutions, Society, and the Environment

None Yes

(Please

specify)

12. Measures to Address Potential Negative Impacts.....

.....

.....

13. Obtaining Consent from Participants or Their Direct Representatives

Yes

No

14. In the case of data collection in organizations such as hospitals, companies, educational institutions, etc., have you obtained permission to collect data in such organizations?

- Not yet proceeded
- Have coordinated and prepared a memorandum requesting permission from the organization, which will allow data collection if ethics certification is received from the university
- Permission received (Please attach supporting documents)

Note: In cases where the organization requires ethics certification from the university first before granting permission for data collection, the researcher must proceed and submit the permission document for data collection from such organization to the Research Ethics Committee within 2 months after receiving certification.

15. Presentation of Research Results

- Present overall results without revealing names, residences, occupations, and organization names
- Present overall results without specifying names but specifying residences (province/region), occupations, and organization names

16. Does this research comply with ethical principles according to the Declaration of Helsinki?

- Yes No

17. Does this research involve plagiarism or adaptation of others' work as one's own?

Yes No

18. Issues that the researcher considers may be related to research ethics or affect research participants from this research

19. Propose a research outline for Exemption review consideration

- Yes (Please fill in details on pages 3-4) No

20. At the time of submitting the research outline to the HCU Research Ethics Committee, have you collected data yet?

- Collected all data
- Collected some data
- Not yet collected data

Signature (Project Leader)
